FULL-STACK DEVELOPER

Experienced in Python with Flask and JavaScript-based programming, with a strong foundation in property management. Possess solid team-building and project management skills that help startups and service-oriented companies streamline operations and enhance customer experience. Known for blending technical expertise with real-world business insight to deliver practical, user-focused solutions.

TECHNICAL SKILLS

Python (Flask), JavaScript (React, Node.js), SQL, HTML/CSS, PostgreSQL, Git, REST APIs, OOP, CLI apps, TDD, Alembic, JSON Server.

TECHNICAL PROJECTS

Hotel Booking CLI - Github | Demo
Python-based command-line application for managing hotel bookings using SQLAlchemy ORM and SQLite.
- Developed an interactive CLI that allows users to create, view, and manage hotels, rooms, guests, and bookings with real-time database updates.
- Implemented object-oriented models and relational database design using SQLAlchemy to ensure scalable and maintainable data relationships.
- Enhanced user experience with input validation, menu navigation, and robust error handling, resulting in a user-friendly administrative tool.

Bot Battlr - Github
A React application where users manage battle bots, customize lineups, and engage in simulated battles.
- Built a dynamic frontend using React.js with functional components, state management, and event handling for interactive bot selection and deployment.
- Integrated RESTful API calls to fetch and manipulate bot data, enabling seamless user interactions with a mock backend.
- Styled the UI with custom CSS to create a visually engaging and responsive user experience across devices.
- Debugged and improved component reusability and logic separation, resulting in cleaner code and better scalability.

EXPERIENCE

LivingCity Asset Management London, England
Building Manager 03/2024 - 10/2024

- Oversaw daily operations of a multi-unit residential building, ensuring high standards of cleanliness and safety.
- Coordinated maintenance schedules and supervised contractors, reducing downtime and increasing efficiency.
- Implemented a digital logging system for repairs and inspections, improving tenant / management communication.
- Conducted periodic building inspections and resolved compliance issues.

Seven Apartments Ltd London, England
Property Manager 07/2021 - 01/2025

- Managing an online property listing system, utilizing structured data for property availability and customer inquiries.
- Maintained databases for tracking rental income, expenses, and customer information.
- Used CRM software to manage bookings, issue receipts, and respond to customer inquiries efficiently.

EDUCATION

Moringa School Nairobi, Kenya
Full Stack Web Development, Python with Flask and JavaScript program 02/2025 - 07/2025

Stanmore College Stanmore, Hertfordshire
BTEC Level 3 in Media 07/2010
